О себе

Hello! My name is Jabbar.

I graduated from the university with a degree in marketing. Now I am studying at the University Adam Mickiewicz in Poznan for a master's degree in Journalism and Social communications. I have no work experience yet, but there are other advantages.

I am very organized and disciplined. At the university, I prepared presentations, participated in all projects and promoted creative ideas, was the head of the group. I organized outings and trips for a whole stream of students (and this is about 90 people), I was always the head of finance and budget. In practice, I worked in .AZ as an assistant manager. Received recommendations from superiors.

I have a healthy approach to finding a job, so I agree to the position of an assistant or an intern, the main thing is that there is an opportunity for development. Ready to fully devote himself to work, follow the rules and culture of the company, in return giving energy and loyalty.

Thank you for attention".
